

A photograph of a modern, two-story house with a light-colored facade and a red-tiled roof. A large, dark-framed glass extension runs along the ground floor, revealing a dining area with white chairs and tables. The house is surrounded by lush greenery, including tall trees and a well-manicured lawn. A white diagonal line runs from the top left corner towards the bottom right, passing through the text.

Palmako

LEMEKS GROUP

2026

Bringing joy to the garden

Over 700 high-quality wooden
products by Palmako

ENG Palmako AS is the leading manufacturer of garden and log houses, glue-laminated products and wood pellets. Our products are well known for their quality as we use the best raw material available: durable and beautiful Nordic spruce. 28 years of experience in wood industry has made us one of the leading companies in this area in Europe today. We hope you enjoy garden products manufactured by Palmako!

GER Palmako AS ist der führende Hersteller von Gartenhäusern, Leimholzprodukten und Holzpellets in Estland. Unsere Produkte sind bekannt für Ihre hohe Qualität, die vor allem durch Verwendung von erstklassigem nordischem Fichtenholz erreicht wird. Dank 28 Jahren Erfahrung in der Holzindustrie ist Palmako heute einer der führenden Hersteller von Garten- und Ferienhäusern in Europa. Wir wünschen Ihnen viel Freude an den Palmako Gartenprodukten!

FRA Palmako AS est le leader dans la fabrication d'abris et de chalets de jardin, de produits en bois lamellé et de granulés en bois. Nos produits sont reconnus pour leur qualité supérieure puisque nous utilisons la meilleure matière première disponible : l'épicéa Nordique qui est un bois naturellement beau et durable. 28 années d'expérience dans l'industrie des abris et chalets en bois ont fait de nous l'un des acteurs majeurs en Europe. Nous espérons que vous profiterez des produits de jardin fabriqués par Palmako !

ESP Palmako AS es el líder de la fabricación de vigas laminadas y casetas de troncos para jardín de Estonia. Nuestros productos son muy conocidos por su calidad, porque usamos la mejor materia prima disponible: el bello y duradero abeto nórdico. 28 años de experiencia en la fabricación de cabañas de madera nos ha hecho una de las empresas líder del sector en la Europa de hoy. Esperamos disfrute de las casas de madera fabricadas por Palmako.

ITA AS Palmako è il principale produttore di case da giardino e in tronchi, prodotti in legno lamellare e pellet di legno. I nostri prodotti sono ben noti per la loro qualità e per il fatto di utilizzare le migliori materie prime disponibili: abete nordico pregiato e resistente. 28 anni di esperienza nell'industria del legno ci hanno reso una delle aziende attualmente leader in questo settore in Europa. Speriamo possiate apprezzare i prodotti Palmako dedicati al giardino! Ci auguriamo che i prodotti per il giardino di Palmako stimolino il vostro interesse!

ENG We are proud to announce that some of our swings, playgrounds and all the playhouses are certified by TÜV Rheinland. It is an additional safety and high quality guarantee to the customer, that the product itself as well as its manufacturing process are tested and supervised by an independent certifying body.

GER Unsere Spielanlagen und Spielhäuser sind vom TÜV Rheinland zertifiziert. Das TÜV-Zertifikat ist ein Nachweis über die Sicherheit und hohe Qualität unserer Produkte. Das Produkt selbst und der Produktionsprozess wurden von unabhängigen Dritten überprüft und bestätigt.

FRA Nous sommes fiers de vous annoncer que certains de nos balançoires, aires de jeu et maisonnettes sont certifiés TÜV Rheinland. C'est un gage de qualité et de sécurité pour nos clients. Cet organisme indépendant teste, surveille, et atteste le processus de fabrication et garantit que les produits répondent à de hautes normes de sécurité et de qualité.

ESP Tenemos el orgullo de anunciar que varios de nuestros columpios, parques infantiles y casitas infantiles tienen ahora certificación de TÜV Rheinland. Para el consumidor es una garantía adicional de seguridad y alta calidad que el producto mismo, así como su proceso de fabricación, sean probados y certificados por una autoridad certificadora independiente.

ITA Siamo lieti di comunicarvi che alcune delle nostre altalene, giochi e casette da bambino sono certificati da TÜV Rheinland. Il fatto che il prodotto e il relativo processo produttivo siano stati controllati e abbiano ottenuto il benestare da un organismo indipendente di certificazione fornisce una ulteriore garanzia di sicurezza ed elevata qualità per i nostri clienti.

FOUNDATION FRAMES (INCL. LOGFOOT™ BRACKETS)

• Fundamentrahmen (inkl. LogFoot™ Rahmenträger) • Cadres de fondations (inclus fixations LogFoot™) • Telaio di base (incl. staffe LogFoot™) • Bases para caseta (incl. soportes LogFoot™)

We offer our garden house customers a Foundation Kit, which includes a cut-to-size foundation frame and adjustable metal feet, known as LogFoot™. The foundation frames are pre-cut to certain fixed sizes. However, to ensure a perfect fit for your specific garden house, some final adjustments are needed to match the frame to the exact dimensions of your cabin.

Staffe LogFoot™ – staffa angolare e per telaio
Soportes LogFoot™ - soporte para la esquina y soporte para el base

FLOORS • Fussböden • Planchers • Suelos • Pavimenti

To meet specific market demands some of our cabins are sold without a floor. Although in majority cases floor can be purchased as an optional extra. As of 2021 Palmako starts to offer unified floor kits in such cases.

An unified floor kit contains of:

- 19x89x2350 mm double and tenoned needed number of floorboards
- 45x70x3000 mm brown dipped (BNDIP) needed number of foundation beams
- 19x19x2350 mm skirting boards
- 19x19 mm door strip according to the width of the door opening
(in two sizes - for a single door and a double door) and the wall thickness.

Unified floor kits can be brown, grey or white dipped.

Due to the different size of cabins and measurements of the floors, please consider below described principle in general in cutting floorboards into the exact measure.

Double end tenoned floor board

GLAZED SLIDING DOORS • Verglaste Aluminium Schiebetüren • Portes coulissantes vitrées • Puerta corredera de cristal • Porte scorrevoli in vetro

From now on we have many houses with sliding doors in our product range. Sliding doors have many benefits which may encourage you to favor them over the regular doors. They let in more natural light, large glass panels running from the ground up to the top maximizes the natural lighting in the room. Sliding doors are useful if there is a need for ventilating the room without opening any doors too wide. They are easy to use when entering and leaving the house. The large glass surfaces of the sliding doors let you enjoy beautiful views to the garden or backyard. And last, but not least, sliding doors look good, they add aesthetic to the building and are valued for functional and practical design. Sliding doors are just beautiful!

ENG

TREATMENT AS ADDITIONAL PROTECTION FOR WOODEN PRODUCTS

Production lines and machines allow us to flexibly arrange procedures and to produce a very wide product range from square log houses with different log thicknesses to the element, prefabricated and large weekend log houses. As we have our own treatment baths for brown, grey and clear white dip treatment, cabins and other larger sized items can be ordered treated with Axil 3000 P by the Sarpap & Cecil Industries water-soluble treatment liquid, guaranteeing treatment within classes 1-3. The brown and grey dipping treatment can enhance the colour of your house, but the clear white dipping works for the pre-paint preparation stage. Smaller sized items like furniture can be pressure-treated in the vacuum-pressure-vacuum method giving these items a green or brown shade. We have invested into modern painting technology that enables us to paint smaller sized garden products like fence panels and posts.

Ask for more information about the treatment of specific product!

Please get familiar with the article number and description of the treatment we offer as follows:

GER

OBERFLÄCHENBEHANDLUNGEN ZUM SCHUTZ VON HOLZPRODUKTEN

Auf unseren modernen Produktionsanlagen verarbeiten wir hochwertiges, nordisches Fichtenholz zu Holz-im-Garten Produkten. Das Sortiment umfasst eine große Auswahl an Blockbohlenhäuser für unterschiedliche Verwendungszwecke sowie Häuser aus vorgefertigten Wandelementen, mit der Möglichkeit zum bauseitigen Isolieren. Bereits ab Werk können die Häuser mit einer Grundierung oder farbigen Endbehandlung versehen werden. Während die Grundierung allseitig im Tauchverfahren aufgebracht wird, kommt bei den lackierten Produkten eine moderne Anlage mit Sprühhöpfen zum Einsatz. Grundierte Häuser müssen nach dem Aufbau zum Schutz vor Witterungseinflüssen, zeitnah mit farbigen Anstrichen versehen werden. Farbige lackierte Häuser können nach dem Aufbau sofort bewohnt werden. Neben diesen Oberflächenbehandlungen bieten wir auch Produkte mit Kesseldruckimprägnierten Oberflächen an. Gartenmöbel und Zäune erhalten Sie mit Kesseldruckimprägnierung, zudem ergänzt ein großes Sortiment fertig lackierter Zäune das Sortiment. Fragen Sie unser Verkaufsteam nach weiteren Informationen zu den Themen Verarbeitung und Oberflächenbehandlungen.

FRA

LE TRAITEMENT, UN AVANTAGE DANS LA PROTECTION DE VOTRE BOIS

Nos lignes de production et nos machines nous permettent d'organiser des procédures de manière flexible et de produire une très large gamme de produits allant des abris en madriers (avec différentes épaisseurs) aux chalets de loisirs en éléments préfabriqués, en passant par d'autres produits d'aménagement pour votre jardin tels que le mobilier de jardin ou les éléments de clôture.

Les abris et les articles de grande taille peuvent être commandés traités avec le liquide de traitement hydrosoluble Axil 3000 P de Sarpap & Cecil industries, garantissant un traitement dans les classes 1-3. Ils sont disponibles en trois coloris : marron, gris vintage et blanc translucide. Le traitement par trempage marron et gris vieilli apporte en plus de la protection une couleur originale, en revanche le trempage en blanc translucide correspond à un apprêt nécessaire avant l'application d'une peinture. Les articles de petite taille comme le mobilier de jardin peuvent être traités en autoclave. Ce traitement donne aux produits une teinte verdâtre ou brunâtre. Grâce à notre investissement dans une technologie moderne de peinture, nous avons la possibilité de peindre certains de nos produits les plus petits en blanc, comme les panneaux de clôture et les poteaux.

Demandez plus d'informations sur le traitement des produits spécifiques !

Veuillez, s'il vous plaît, noter le numéro d'article et la description du traitement que nous offrons comme indiqué ci-dessous :

ESP

TRATAMIENTO COMO PROTECCIÓN ADICIONAL PARA PRODUCTOS DE MADERA.

Las líneas de producción y las máquinas nos dan flexibilidad para organizar los procedimientos y fabricar una amplia variedad de productos, desde casas de laminas de madera de diferentes grosores, hasta casetas de elementos prefabricadas y grandes casas de fin de semana. Tenemos nuestros propios baños de tratamiento en marrón, gris y blanco claro, por lo que se pueden pedir cabañas y otros productos de gran tamaño ya tratados con Axil 3000 P líquido soluble en agua de Sarpap & Cecil Industries que garantiza tratamiento de clase 1-3. Los tratamientos marrón y gris pueden realzar el color de su casa, en cambio, el blanco claro es una preparación para antes de pintar. Los artículos de menor tamaño, como paneles de ocultación, postes y muebles, pueden ser tratados a presión con el método autoclave, dándoles un tono verde o marrón. Hemos invertido en una tecnología de pintado moderna que nos permite pintar productos de jardín de menor tamaño, como paneles de ocultación y postes.

No dude en pedir más información sobre el tratamiento de un producto.

Por favor, vea el producto y la descripción del tratamiento ofrecido de la siguiente manera:

TRATTAMENTO COME PROTEZIONE AGGIUNTIVA PER PRODOTTI IN LEGNO

I nostri macchinari e linee produttive ci permettono di organizzarci in modo flessibile e di realizzare una gamma di prodotti molto ampia, dalle casette in tronchi quadrati in vari spessori, alle case prefabbricate di maggiori dimensioni ad elementi in tronchi, per il fine settimana. Grazie ai nostri bagni di trattamento a tuffo marrone, grigio e bianco chiaro, le cabine e altri elementi di maggiori dimensioni possono essere ordinati trattati con Axil 3000 P con liquido solubile in acqua Sarpap & Cecil Industries, garantendo un trattamento all'interno delle classi 1-3. Il trattamento marrone dona alla casa una migliore tonalità finale, mentre il trattamento a tuffo chiaro bianco fornisce un'ottima base per la fase di preparazione della pre-verniciatura. Gli elementi con dimensioni più piccole, come i mobili, possono essere trattati sotto pressione con il metodo vuoto-pressione-vuoto, che dona a questi elementi una tonalità verde o marrone. Abbiamo effettuato investimenti in moderni sistemi di verniciatura, che ci permettono di rivestire elementi di piccole dimensioni per il giardino, come pannelli di recinzione e pali. Richiedete maggiori informazioni sul trattamento disponibile per lo specifico prodotto!

PAINTING THE CABINS – THE HIGHEST LEVEL OF PROTECTION FOR YOUR GARDEN HOUSE

Depending on the product we can now paint a wide range of cabins in our product range. Please see an overview of all colour combinations on page 69. We use weatherproof water-based acrylic paint for finishing wood surfaces and details. The interior of the cabin stays natural. The wall details of painted cabins are painted only from one side, this is the reason why the painted cabin cannot be installed in reverse. Please note that the visuals of the painted cabins are illustrative only and may differ from the actual finish of the product. Please ask for the sales and warranty terms and conditions of painting from our sales team.

Painted wall logs

Wall logs painted outside, natural inside

THE DESCRIPTION OF PAINTING THE CABINS

PAINTED

- walls from outside
- doors and windows (painted from outside and inside)
- external slats from all sides

NOT PAINTED

- walls from inside
- floor boards and foundation beams
- roof boards, rafters, purlins
- all the details seen inside of the house

GER PROFESSIONELLE OBERFLÄCHENBEHANDLUNG AB WERK ALS BESTER SCHUTZ FÜR IHR GARTENHAUS

Dank einer neuen und modernen Lackieranlage können Sie zukünftig unter einer Vielzahl farbig endbehandelter Häuser wählen. Übersicht aller verfügbaren Farbkombinationen auf den Seiten 70 und 71. Für die Veredelung von Holzoberflächen verwenden wir wetterfeste Acrylfarben auf Wasserbasis. Farbliche Behandlungen werden ausschließlich auf den äußeren Oberflächen aufgebracht, das Innere des Hauses bleibt naturbelassen. Bitte beachten Sie, dass die Bilder der lackierten Gartenhäuser nur der Veranschaulichung dienen – das tatsächliche Aussehen der lackierten Produkte kann abweichen. Die Verkaufs- und Garantiebedingungen für unsere lackierten Produkte stellen wir Ihnen gerne zur Verfügung.

LACKIERUNG DER GARTENHÄUSER

LACKIERT

- Außenwände
- Türen und Fenster (Innen- und Außenseite lackiert)
- Blend- und Abdeckbretter von allen Seiten

UNLACKIERT

- Innenwände
- Fußbodenbretter und Fundamentbalken
- Dachbretter, Sparren, Pfetten
- Ggf. Innentüren, Zwischenwände, Sauna Sitzbänke und Sauna Anbauteile

FRA UNE PEINTURE RÉALISÉE EN USINE - LE PLUS HAUT NIVEAU DE PROTECTION POUR VOTRE ABRÍ

En fonction de l'article choisi, nous pouvons maintenant peindre de nombreux abris de jardin de notre gamme. Découvrez l'ensemble des combinaisons possibles en page 69. Nous utilisons sur les surfaces en bois et sur les détails de finition un enduit acrylique à base aqueuse, résistant aux intempéries. L'intérieur de l'abri reste naturel. Les parois des articles qui sont enduits le sont sur un seul côté. C'est pourquoi un abri qui a été peint en usine ne peut pas être installé en mode réversible. Attention, les visuels des abris de jardin peints ne sont là qu'à titre d'exemple. Il peut y avoir une différence avec la couleur de finition réelle du produit. Merci de consulter nos équipes commerciales pour en savoir plus sur les conditions de vente et de garantie de nos enduits.

DESCRIPTIF DE LA MANIÈRE DONT SONT PEINTS LES ABRIS DE JARDIN

PEINT

- Murs vue de l'extérieur
- Les portes et fenêtres face intérieure et face extérieure
- Les lattes extérieures sur l'ensemble des côtés

NON PEINT

- Murs vue de l'intérieur
- Madriers face intérieure et poutres de fondation
- Lames de toit, chevrons, pannes
- Tous les détails vus à l'intérieur de l'abri

ESP PINTADO DE LAS CASITAS – EL MÁS ALTO NIVEL DE PROTECCIÓN PARA SU CASA DE JARDÍN

Dependiendo del producto, ahora podemos pintar una amplia gama de casitas dentro de nuestra oferta de productos. Consulte una visión general de todas las combinaciones de colores en la página 69. Utilizamos pintura acrílica a base de agua resistente a la intemperie para el acabado de las superficies y detalles de la madera. El interior de la casita se mantiene natural. Los detalles de las paredes de las casitas pintadas se pintan solo por un lado, por lo que no se puede instalar la casita pintada al revés. Tenga en cuenta que las imágenes de las casitas pintadas son solo ilustrativas y pueden diferir del acabado real del producto. Consulte con nuestro equipo de ventas para obtener los términos y condiciones de venta y garantía sobre el pintado.

DESCRIPCIÓN DEL PINTADO DE LAS CASITAS

PINTADO

- paredes Exteriores
- puertas y ventanas (pintadas por fuera y por dentro)
- tableros de fascia externos por todos los lados

NO PINTADO

- paredes interiores
- madera del suelo y vigas de cimentación
- maderas del techo, vigas, correas
- todos los detalles visibles dentro de la casa

ITA VERNICIARE DELLE CASSETTE DA GIARDINO – IL MASSIMO LIVELLO DI PROTEZIONE PER LA TUA CASA DA GIARDINO

A seconda del prodotto, possiamo ora verniciare un'ampia selezione delle cassette della nostra gamma di prodotti. È possibile consultare una panoramica di tutte le combinazioni di colori a pagina 69. Utilizziamo una vernice acrilica a base d'acqua resistente alle intemperie per la finitura di superfici e dettagli in legno. L'interno della cassetta rimane al naturale. I dettagli delle pareti delle cassette verniciate sono pitturati solo da un lato, per cui la cassetta verniciata non può essere montata in versione speculare. Si prega di notare che le immagini delle case verniciate sono illustrative e possono variare dalla finitura effettiva del prodotto. Richiedere i termini e le condizioni di vendita e garanzia della verniciatura al nostro team addetto alle vendite.

DESCRIZIONE DELLA VERNICIATURA DELLE CASSETTE DA GIARDINO

VERNICIATE

- pareti dall'esterno
- porte e finestre (verniciate dall'esterno e dall'interno)
- frontalini esterni su tutti i lati

NON VERNICIATE

- pareti dall'interno
- assi del pavimento e travi di fondazione
- assi del tetto, travi, arcarecci
- tutti i dettagli visibili all'interno della cassetta
